

# Sunnyfields Pet Crematorium for **pdsa** clients

John

Paula

Claire

We founded Sunnyfields in 1998 after the loss of a loved one, and experiencing how painful and difficult this time can be, we realised how important it was for owners to have a cremation service that not only provides an individual private cremation, but was also dedicated to helping them come to terms with their loss. Sunnyfields has now become what we hoped it would be a small, very personal, friendly company for you our customer, and takes pride in every aspect of its service in helping you at such a difficult time. Claire joined Sunnyfields in 2008 and has become a very valued member of the Sunnyfields family. We all have bereavement experience and can offer advice, compassion and guidance to those who need our help. Paula and Claire are your first contact with Sunnyfields, and we offer a friendly voice with a sympathetic ear and encourage you to contact us to discuss even the smallest query, we will take care of you, your family and your beloved friend, in a professional manner from the time you call to the time we bring your loved one home personally to your door. Sunnyfields is set in tranquil surroundings and is also open at weekends where John will look after you. You are also welcome to come to Sunnyfields if you would like to bring your loved one to us and visit our Chapel of Rest.
